

## VW AG 2.5D V6 – Quad camshaft engines Engine codes: AFB, AKE, AKN, AYM, BCZ, BFC

### OE Interchange

#### CAM700

059109021BP  
059109021K  
059109021G

#### CAM703

059109022BC  
059109022K  
059109022G

#### CAM701

059109021BQ  
059109021L  
059109021P

#### CAM702

059109022BD  
059109022L  
059109022P

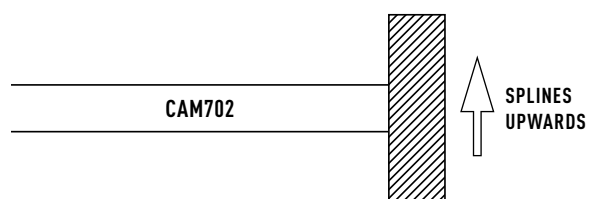

**CAM700** pairs with **CAM703**, fitting position to cylinders 1 to 3

**CAM701** pairs with **CAM702**, fitting position to cylinders 4 to 6

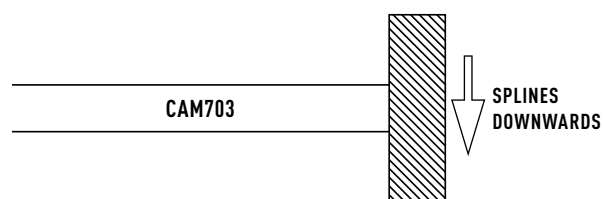

### How to identify between CAM702 & CAM703

Place the camshafts on a flat surface with the gear to the right, then observe the direction of the gear splines.

1. If the gear splines are in upward direction from left to right, then the camshaft is **CAM702** for fitting position to cylinders 4 to 6: -

2. If the gear splines are in downward direction from left to right, then the camshaft is **CAM703** for fitting position to cylinders 1 to 3: -
